

# Project FLASH

*Following Language growth in AutiSm at Home*

## RESEARCH OPPORTUNITY

*We are recruiting children with an autism diagnosis, or children who are waiting for an autism diagnosis, between the ages of 12 and 60 months for a research study about language and social growth over time.*

## PARTICIPATION INVOLVES

- Online survey related to your child's development (5-15 minutes)
- Online survey related to information about your family and your child's services and development (30-45 minutes)
- Clinic or home visit for play-based assessments (2-3 hours)
- In-home play-based assessment with you and your child (10 minutes)
- You may be asked to participate in additional research activities if selected

## COMPENSATION

Eligible participants will receive \$100 for participating in the study. If you participate in additional activities you will receive additional compensation.
