

PROJECT BENEFIT

KEY:

IDD = Intellectual and/ or developmental disability
BIPOC = Black, Indigenous, and People of Color

Developing Partnerships with IDD and BIPOC Families to Improve Healthcare Transition Research

Main Problems

- Many people with IDD do not receive healthcare transition services
- People with IDD who are BIPOC are often excluded from healthcare research
- This leads to worse health outcomes and more health problems

Main Goals

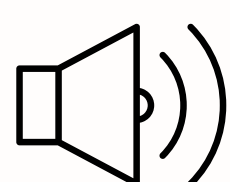

- Make health research better for people with disabilities and their families
- Develop long-lasting partnerships with people in the IDD and BIPOC community
